Any variations to the regulated components that are applicable and new ones that may appear, shall be transferred to the customer both upwards and downwards (Accordingly, the consumption profile considered shall be P1=33% and P2=67%). Any other charges made by the distribution company such as reactive energy, lease of metering equipment, rights, etc. shall also be transferred to the customer.

Likewise, the power terms and power units may be updated on 1 January each year, in accordance with the real value of the CPI (Last General Inter-Annual National Consumer Price Index published officially at the time of the update).

Siempre Ganas (All Benefits) Discount: 1% discount on all the power consumed, for each 1% that the consumption during off-peak hours exceeds 50% of the total. This discount shall be calculated and rounded off without decimal places and independently for each bill.

With a minimum commitment period of 1 year: If the contract is unilaterally terminated by the Customer before the first extension period has begun, a penalty may be applied, equivalent to 5% of the energy, estimated by Endesa for the relevant tariff group, still to be supplied until the end of the first year since the start of the contract. This energy shall be billed at the price of the energy, without discounts, established in the contract at the time it is terminated.

The Siempre Ganas (All Benefits) Discount is conditional upon the concession of the 2.0DHA/2.1DHA access tariff and the corresponding metering equipment. Otherwise, all the previous access conditions shall be maintained and for the contracted product except the aforementioned discount, which shall be called for identification purposes Tempo 24h.
