- This service enables the correct condition of the boiler gas installation to be guaranteed at all times and the heating system, including the hydraulic circuit and the radiators.
- Offer valid for piped natural gas supplies in mainland Spain and the islands of Majorca and Ibiza, with access tariffs 3.1 or 3.2. The installation and the elements thereof shall comply with existing legislation and shall be accessible.
- Periodic annual review: for servicing the different elements of the gas boiler installation and the heating system in the household.
- **Repair service:** Free phone 900 85 86 (24h). Assistance within 3h hours (365d/24h). Includes travel costs and 3h of labour (if more than 3h of labour are required or a specific part, the technician will provide the customer with a non-binding estimate free of charge). Unlimited number of visits for the installation and for the gas equipment (boiler).
- If the customer has a joint gas and maintenance contract, it includes the cost of the Mandatory Periodic Inspection, pursuant to Royal Decree 919/2006 of 528 July, saving on average €50/60 (approximate cost every 5 years) if the gas contract is signed with Endesa.
- The Service is contracted for a period of one year and is automatically renewed for annual periods. The established price is unique and corresponds with a one-year term, not with standing that it may be paid in a single amount (independently) or in instalments (together with the gas bill), if contracted together (gas and maintenance).
- For joint gas and maintenance contracts, the service activation will be subject to the concession of the distribution company's TPA for the associated gas contract.
