Any variations to the regulated components that are applicable and new ones that may appear, shall be transferred to the customer both upwards and downwards. Any other charges made by the distribution company such as reactive energy, lease of metering equipment, rights, etc. shall also be transferred to the customer.

Likewise, the power terms and power units may be updated on 1 January each year, in accordance with the real value of the CPI (Last General Inter-Annual National Consumer Price Index published officially at the time of the update).

Times: The time periods shall coincide at all times with those of the access tariff. At the moment off-peak hours (P2) are from 22h to 12h in winter and from 23h to 13h in summer, the rest are considered peak hours (P1).

Green Energy: All the power supplied while this contract is in force shall be called "Energía Verde" (Green Energy) under the following terms and conditions: Via the allocation (cancellation through redemption) of Guarantees of Origin managed by the National Markets and Competition Commission (CNMC), each year Endesa will certify that an amount equivalent to the Supply Point consumption of the preceding year is produced from renewable energy sources or high efficiency cogeneration. Endesa shall inform the Customer of the allocation of Guarantees of Origin on the Customer's bill pursuant to the provisions set forth in existing legislation and the Customer may also verify this via the CNMC website (www.cnmc.es). Applicable legislation in force: Order ITC 1522/2007, CNE Circular 6/2012 and CNE Circular 1/2008.

For billing on paper, the periodicity will be bimonthly. For electronic invoicing the customer can choose between monthly and bimonthly (by default monthly, unless the supply was already in Endesa, in which case the previous periodicity will be respected). The periodicity will always be monthly for invoicing by maximeter.
